BIOTROPICA 26(4): 481–485 1994

Subject Index to Volume 26

SUBJECT	PAGE
acetylene reduction	234
Ackerman, J. D.	44
activity patterns, of spiders	84
Agaonidae	180
agouti	420
allozymes, endemic *Shorea*	23
Alonso-Mejía, A.	341
Alouatta	469
Alouatta palliata	332
Alvares, S. M. R.	469
Amazonia	98, 443
seed dispersal	30
palm phenology	285
amino acids, in nectar	276
amplexus, in beetles	436
anemophily	172
annual growth rings	229
ant gardens	222
Anthoxanthum odoratum	2
ant-mimicry	465
ant-plant interaction	222
ants	
army	469
community ecology	61,73
nest structure	308
predation	462
Apidae	465
Aplet, G. H.	17
arborescent palms	285
areoles	229
Armbruster, W. S.	50
Artibeus jamaicensis	320
Asclepiadaceae	214
Atlantic forest, bird foraging	469
Atta cephalotes	462
Attini	462
Australia	217
pollination	214
tree demography	351
fire effects	118
Avicularia	84
Baker, H. G.	141
Barro Colorado Nature Monument	208
Barro Colorado Island	420
Bartareau, T.	118
Bawa, K. S.	23
Beehler, B. M.	459
beetle, reproduction	436
Bennett, R. R.	427
Berg, E. E.	50
Bernardello, L. M.	113
biomass	255
bird, diet	187
Blattaria	469
Borneo, fire adaptation	468
Bothrops asper	198
Braun, U.	308
Brazil	
ant communities	73
bird foraging	469
herbivory	302
primate ecology	98
palm phenology	285
saurocory	295
seed dispersal	30
Brown, S.	255
Bruchidae	420
Bryophyta	12
Bullock, S. H.	172
Buskirk, R. E.	229
butterflies	341
Byrne, M. M.	61
Caballé, G.	266
Cactaceae	229, 295
Camponotus	222
canopy trees, demography	351
canopy, insect diversity	312
Carbone, L. G.	208
Carey, E. V.	255
catfish	30
Cebus	469
Cebus apella	98
Cecropia	400
Cedeño, E.	208
census techniques	332
Ceratopetalum virchowii	351
Cereae	229
cerrado, herbivory	302
Chapman, C. A.	160
Chapman, L. J.	160
characins	30
Chiapas	400
Chiroptera	320, 344
Cibotium glaucum	378
Cicindelidae	436
Clark, D. B.	363
classification, phenological	141
Clethra occidentalis	392
clonal growth	266
cluster analysis	332
coastal plain woodlands	118
coastal grassland, saurocory	295
cockroach	469
cocoa farms, ant habitat	73
coexistence mechanism	61
Coleoptera	217
colony structure, of ants	308
community ecology, flowering plants	141
community structure, invertebrate	312
Compton, S. G.	180
copulation, in beetles	436
Costa Rica	
ant communities	61
ant predation	462
annual growth rings	229
bat roosting	344
dioecy	363
hawkmoth vision	427
insect predation	341
monkey density	332
mycorrhizae	369
nectar composition	276
plant phenology	141
Cox, P. A.	384
Crematogaster	222
Cunningham, S. A.	227

Cutler, D. E. 427
cycads 217
Cycas 217
cyclones 384
Cyrilla racemiflora 124
Dalhousiea africana 266
Dalling, J. W. 392
Dayanandan, B. 23
de Souza, A. L. T. 295
decay 234
deciduous forest
  avian diet 187
  pollination 172
defense, against herbivores 302
Delabie, J. H. C. 73
Deleporte, P. 469
Delgadillo M., Claudio 12
Dendrobium canaliculatum 118
density-dependence, seedling mortality 408
Deschampsia nubigena 2
Desmodus 344
Didelphis 400
diel activity patterns, bees 50
diet activity patterns, of spiders 84
diet
  of monkeys 98
  of raptors 443
dioecy 172, 180
  nutrient response 363
Diptera 217
Dipterocarpaceae 23
Dischidia nummularia 118
disturbance
  by cyclones 384
  by fire 118, 468
  effect on bats 320
  hurricane 312
diversity
  invertebrate 312
  of ants 73
  of palms 285
dominance, in ant communities 73
dormancy, of seeds 30
dragonfly, prey selection 341
dry forest
  annual growth 229
  bat roosting 344
  insect predation 341
  plant diversity 241
Eciton burchelli 469
Ecuador, floral nectar 113
Elaeocarpus ferruginiflorus 351
Elmqvist, T. 384
endemism 12
entomophily 172
envenomation 198
epiphyte 44
  and ant gardens 222
  distribution 118
establishment, vegetation 392
eucalypt woodland, pollination 214
Euglossa 50, 465
euglossine bees 50
exotic plants 2
extrafloral nectar 276
Falconiformes 443
feeding guilds, birds 187
feeding behavior, of hawkmoths 427
fern, growth 378
Fernandes, G. W. 302
fertilizer effects 378
Ficus 180
figs, pollination 180
Figueira, J. E. C. 295
fire
  adaptation 468
  management 118
  regimes 118
first aid 198
Fischer, C. R. 369
floral colors 427
floral duration 227
floristics, Madagascar 241
flowering, phenology 141
flushing, foraging strategy 469
foliar nutrients 392
foraging
  associations 469
  by bats 320
  of ants 308
  of bees 50
  of raptors 443
forest structure 241
  after disturbance 384
  after fire 118
forest dynamics 255
Forget, P.-M. 408, 420
Formicidae 73
Forster, P. I. 214, 217
Frankie, G. W. 141
French Guiana
  predator escape 469
  plant recruitment 408
frugivory 160
fruit
  abundance 98
  set 44, 227
  traps 160
fruiting, of palms 285
fungal attack 408
Gabon, plant growth 266
Galetti, M. 469
Galetto, L. 113
Gannon, M. R. 320
gap size 384
Garcia, M. A. 295
germination 30
Gigante Peninsula 208
Gillespie, A. J. R. 255
Glomales 369
Gomphocarpus physocarpus 214
gradient
  elevational 17
  precipitation 17
Grandcolas, P. 469
grasslands, succession 2
Grijalba, E. 113
growth rates, of canopy trees 351
guilds
  avian 187
  of raptors 443
Haber, W. A. 427

habitat selection
birds 443
mammals 208
Hamelia patens 227
Hardy, D. L., Sr. 198
Hawai'i
leaf morphology 17
nitrogen fixation 234
succession 2
tree ferns 378
hemiepiphytes 468
hemipterans 302
herbivory 302
after disturbance 312
by ants 462
Herwitz, S. R. 351
Hölldobler, B. 308
home range, of bats 320
homopterans 302
honeyeater 459
howler monkey 332
hummingbirds, as pollinators 44
hurricane
effect on bats 320
effect on herbivory 312
hydrochory 30
Hymenoptera 217, 465
ichthyochory 30
igapó 30
India, mate guarding 436
Inga 276
insect
reproduction 436
predation 469
vision 427
insects, as pollinators 214
inundation forests 30
invasion, of exotic plants 2
invertebrate, decomposers 124
islands, succession 180
Ivory Coast, ant nesting 308
Jamaica, colonization 392
Janos, D. P. 369
Jaramillo, J. 113
Jessenia bataua 285
Joel, Geeske 17
Karpa, D. M. 2
Kenya, ant nesting 308
Kibale Forest 160
Kohler, J. 208
Koptur, S. 276
Krakatau 180
Kubitzki, K. 30
La Selva Biological Reserve 141, 332
Lagothrix 98
landslide scars 392
Lanxoblatta emarinata 469
Latin America 12
lava flow, succession 2
leaf variation, as defense 302
leaf, morphology 17
leaf-cutting ants 462
Lefebvre, G. 187
Leigh, E. G., Jr. 420
Lemaireocereus 229
Lepidoptera 341
Lepidozamia 217
Lepthomis vesiculosa 341
liana 266
Libellulidae 341
lichens 234
Linderman, R. G. 369
live trapping 208
lizards, frugivory 295
lower montane forest, resource defense 459
lowland moist forest, tree mortality 255
lowland wet forest
ant nesting 61
ant predation 462
bees 50
dioecy 363
fruit set 227
monkey density 332
mycorrhizae 369
plant phenology 141
plant recruitment 408
pollination 180
predator escape 469
raptor ecology 443
seed dispersal 400
snakebite 198
vegetative growth 266
lowland seasonal forest, seed predation 420
Lugo, A. E. 255
Machado, C. G. 469
Machin, P. J. 217
Macrozamia 217
Madagascar, plant diversity 241
Majer, J. D. 73
Malaysia, fire adaptation 468
mammal, trapping 208
Manduca sexta 427
Marquez, M. 341
mate guarding 436
mating systems, of plants 23
McClearn, D. 208
McGowan, K. J. 208
McNeil, R. 187
measurement, of fruit abundance 160
Medillín, R. A. 400
Melaleuca viridiflora 118
Meléndez, E. J. 44
Melidectes 459
Meliphagidae 459
Meliponini 172
Melocactus 295
Metrosideros polymorpha 17
México
pollination 172
seed dispersal 400
Miller, D. 208
Mitrastemma yamamotoi 459
mixed bird flocks 469
moist forest 222
after cyclones 384
mammal density 208
monkey 98
monogyny 308
Monophyllus redmani 320
montane moist forest
bat ecology 320
hawkmoth vision 427

herbivory 312
nectar composition 276
tree mortality 255
montane wet forest
floral nectar 113
nitrogen fixation 234
succession 392
tree demography 351
tree ferns 378
mortality, of canopy trees 351
mortality, of trees 255, 384
mosaic patterns, of distribution 73
mosses, endemism 12
Mound, L. 217
Munoz, E. 420
Murawski, D. A. 23
Mutillidae 465
mutualism
limitation 180
nectar reward 276
mycorrhizae
innoculum potential 369
vesicular-arbuscular 369
nectar 172
as resource 459
composition 113, 276
feeding 459
reward 44
Neotropical, mosses 12
nests, of ants 308
Newstrom, L. E. 141
nitrogen fixation 234
nitrogen 378
notophyll vine forest, tree demography 351
nutrient cycling 124
nutrients, phosphorus 363
Odonata 341
oppossums, as seed dispersers 400
orchid 44
Otis, G. W. 229
outcrossing rates 23
palms, seed predation 420
Palo Verde National Park 341
Paltothyreus 308
Panama
mammal density 208
parasitism 465
seed predation 420
Papilionaceae 266
Pappognatha 465
Papua New Guinea, resource defense 459
Paraponera clavata 462
parasitism, by wasps 465
pasture, mycorrhizae 369
Pearson, D. L. 436
Peeters, C. 308
Peres, C. A. 98, 285
Perry, D. A. 369
Peru
ant gardens 222
raptor ecology 443
phenology
of growth 229, 378
of plants 98
of spiders 84
plant reproductive 141, 172, 285
